INTRODUCING
SLIMORA

Slim & Luxurious

An adaptable shaft,
designed for every home

SLIMORA

“Our Permanent Magnet Synchronous Traction Machine sets a new standard—delivering advanced technology, trusted reliability, and clear

Step into the future of motion with the SLIMORA with gearless belt drive —crafted for those who demand nothing less than excellence. Delivering double the speed, effortless power, it combines strength with sophistication. With a range of 0.15 m/s to 1.0 m/s and a weight capacity of 340 kg, every ride feels powerful yet refined.

The gearless belt drive takes performance even further—delivering an ultra-smooth, whisper-quiet experience. No slippage. No interruptions. Just pure, seamless motion powered by cutting-edge engineering and remarkable energy efficiency.

Advanced Features

Energy Efficient

Engineered for sustainability, it delivers peak performance with low energy consumption, compatible with both single-phase 230VAC and three-phase 400VAC power systems.

Performance

Delivers excellent starting and stopping accuracy for precise, reliable operation.

Smooth Ride

Experience an ultra-comfortable ride— smooth, disruption-free experience with zero jerks or slippage.

Easy Installation

Smartly engineered for a fast, smooth installation process, so your system is up and running without delays.

Safety

Equipped with integrated smart technology and an emergency evacuation system, ensuring the highest levels of passenger safety and security.

Design

Elegant finishes featuring steel combined with customizable colors and options, offering maximum design flexibility.

Space Optimized

Smartly engineered to fit almost anywhere—whether with or without a shaft or machine room—while overcoming low pit and headroom limitations.

Personalised to Perfection

Your home, your lift. With the Slimora, you have the freedom to customise size, materials, and design finishes to complement your interiors, adding both elegance and character.

Next-Gen Efficiency / Eco-Elegance

Combining whisper-quiet performance, gearless technology, and an integrated inverter, it offers an environmentally responsible and future-ready solution.

SSS Technology – Soft Start & Stop

Experience unmatched ride comfort with the SSS device, which works with the Slimora motor to deliver smooth, seamless starts and stops every time.

Customisable Cabin Size for Maximum ROS

The Slimora redefines space efficiency with the largest cabin size for home elevators. It delivers the optimal shaft-to-cabin ratio for an exceptional Return on Space (ROS). Its flexible guide rail positioning ensures a perfect fit for any architectural layout.

Signature Flooring / Elegant Flooring

The Slimora offers a tailor-made flooring experience with exquisite options. For a truly bespoke ambience, you also have the freedom to integrate your own flooring design, completing the cabin's personalised luxury.

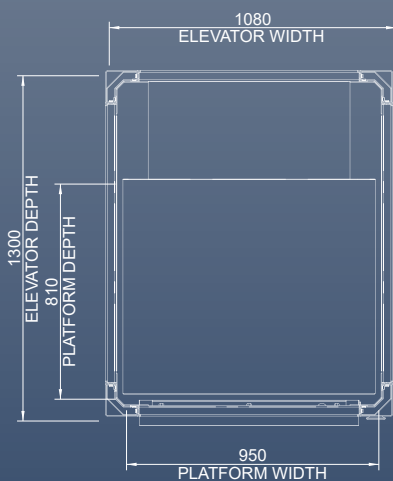

Centre-Opening Glass Doors

Designed with elegance and durability in mind, the Slimora features centre-opening glass doors that seamlessly elevate your home's aesthetic.
